Accepted date: 26 September 2017

Please cite this article as: Gabriele Bammer , Strengthening Community Operational Research through Exchange of Tools and Strategic Alliances, *European Journal of Operational Research* (2017), doi: [10.1016/j.ejor.2017.09.041](https://doi.org/10.1016/j.ejor.2017.09.041)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Community operational research needs alliances eg with transdisciplinarity
- Tackling complex problems requires tool-sharing by related communities of practice
- A new discipline of Integration and Implementation Sciences (I2S) can be a conduit
- Six tools/toolkits to enhance community operational research are described
- Banding together will increase influence in research and education policy making
