Collaborative vehicle routing: a survey

Margaretha Gansterer, Richard F. Hartl

PII: S0377-2217(17)30936-0
DOI: [10.1016/j.ejor.2017.10.023](https://doi.org/10.1016/j.ejor.2017.10.023)
Reference: EOR 14747

To appear in: *European Journal of Operational Research*

Received date: 4 June 2017
Revised date: 20 September 2017
Accepted date: 11 October 2017

Please cite this article as: Margaretha Gansterer, Richard F. Hartl, Collaborative vehicle routing: a survey, *European Journal of Operational Research* (2017), doi: [10.1016/j.ejor.2017.10.023](https://doi.org/10.1016/j.ejor.2017.10.023)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- A new classification of literature on collaborative vehicle routing is proposed.
- Three major streams of research are identified.
- The papers gives a structured overview on recent developments.
- Future research directions are highlighted.
