This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Development of robust framework for strategic workforce planning at national healthcare level
- Framework development with stakeholders using System Dynamics and other methodologies over five years
- Lessons for the practice of Operational Research supporting national policy making
