This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- mixed-strategy measure developed in an imperfectly competitive market
- probabilistic and multi-oriented efficiency by directional distance function
- a comparison of the existing efficiency measures for providing managerial insight
- development of environmental consistency and strategic consistency indices
- an empirical study of China's regional electric power industry sectors in 2010.
