This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- The algorithm is suitable for container loading of pallets with infill boxes.
- The algorithm satisfies the single support constraint on pallets.
- The algorithm achieves competitive results for BR1-BR15.
