Accepted Manuscript

Fusion functions based discrete Choquet-like integrals

R. Mesiar, A. Kolesárová, H. Bustince, G.P. Dimuro, B.C. Bedregal

PII: S0377-2217(16)00056-4
DOI: 10.1016/j.ejor.2016.01.027
Reference: EOR 13471

To appear in: *European Journal of Operational Research*

Received date: 15 July 2015
Revised date: 13 January 2016
Accepted date: 16 January 2016

Please cite this article as: R. Mesiar, A. Kolesárová, H. Bustince, G.P. Dimuro, B.C. Bedregal, Fusion functions based discrete Choquet-like integrals, *European Journal of Operational Research* (2016), doi: 10.1016/j.ejor.2016.01.027

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- A new generalization of the discrete Choquet integral is proposed
- Fusion functions yielding particular properties are characterized
- Translation invariant generalizations are completely described
- New classes of binary aggregation functions are exemplified
