

## Accepted Manuscript

An optimization approach for district heating strategic network design

Chiara Bordin, Angelo Gordini, Daniele Vigo

PII: S0377-2217(16)00003-5  
DOI: [10.1016/j.ejor.2015.12.049](https://doi.org/10.1016/j.ejor.2015.12.049)  
Reference: EOR 13440

To appear in: *European Journal of Operational Research*

Received date: 10 November 2014  
Revised date: 29 December 2015  
Accepted date: 31 December 2015

Please cite this article as: Chiara Bordin, Angelo Gordini, Daniele Vigo, An optimization approach for district heating strategic network design, *European Journal of Operational Research* (2016), doi: [10.1016/j.ejor.2015.12.049](https://doi.org/10.1016/j.ejor.2015.12.049)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- We model the incremental evolution of a district heating network
- Technical and economic factors are taken into account
- Testing is performed on a real-world network
- Extensive analysis on large randomly generated networks
- The model is incorporated into a software package
