This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights:

- Efficiency analysis of Swiss life, property/casualty, and reinsurance companies from 1997-2013
- Efficiency has improved with property/casualty and reinsurance, but not with life insurers
- Life insurance firms with international business exhibit superior efficiency
- Diversification in the European market is better than targeting markets outside of Europe
