

## Accepted Manuscript

New results on high-order risk changes

Mario Menegatti

PII: S0377-2217(14)01024-8  
DOI: [10.1016/j.ejor.2014.12.023](https://doi.org/10.1016/j.ejor.2014.12.023)  
Reference: EOR 12682

To appear in: *European Journal of Operational Research*

Received date: 24 September 2013  
Revised date: 4 July 2014  
Accepted date: 15 December 2014

Please cite this article as: Mario Menegatti, New results on high-order risk changes, *European Journal of Operational Research* (2015), doi: [10.1016/j.ejor.2014.12.023](https://doi.org/10.1016/j.ejor.2014.12.023)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

- The signs of derivatives of the utility function of different orders are related
- Agent preferences in case of different high-order risk changes are related
- Saving choices in case of different high-order risk changes are related
