Title: Semi-supervised learning based distributed attack detection framework for IoT

Author: Shailendra Rathore Jong Hyuk Park

PII: S1568-4946(18)30350-8

DOI: <https://doi.org/doi:10.1016/j.asoc.2018.05.049>

Reference: ASOC 4932

To appear in: *Applied Soft Computing*

Received date: 20-11-2017

Revised date: 11-5-2018

Accepted date: 22-5-2018

Please cite this article as: Shailendra Rathore, Jong Hyuk Park, Semi-supervised learning based distributed attack detection framework for IoT, *Applied Soft Computing Journal* (2018), <https://doi.org/10.1016/j.asoc.2018.05.049>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights (for review)*Highlights**

- Cyber security in Internet of Things (IoT) is studied.
- Fog computing is applied to distributed attack detection (DAD) in IoT.
- Semi-supervised learning based DAD for IoT is proposed.
