

## Accepted Manuscript

Title: Hybrid Bio-Inspired Computational Intelligence  
Techniques for Solving Power System Optimization  
Problems: A Comprehensive Survey

Authors: Imran Rahman, Junita Mohamad-Saleh

PII: S1568-4946(18)30242-4  
DOI: <https://doi.org/10.1016/j.asoc.2018.04.051>  
Reference: ASOC 4855

To appear in: *Applied Soft Computing*

Received date: 30-4-2017  
Revised date: 20-4-2018  
Accepted date: 21-4-2018

Please cite this article as: Imran Rahman, Junita Mohamad-Saleh, Hybrid Bio-Inspired Computational Intelligence Techniques for Solving Power System Optimization Problems: A Comprehensive Survey, *Applied Soft Computing Journal* <https://doi.org/10.1016/j.asoc.2018.04.051>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

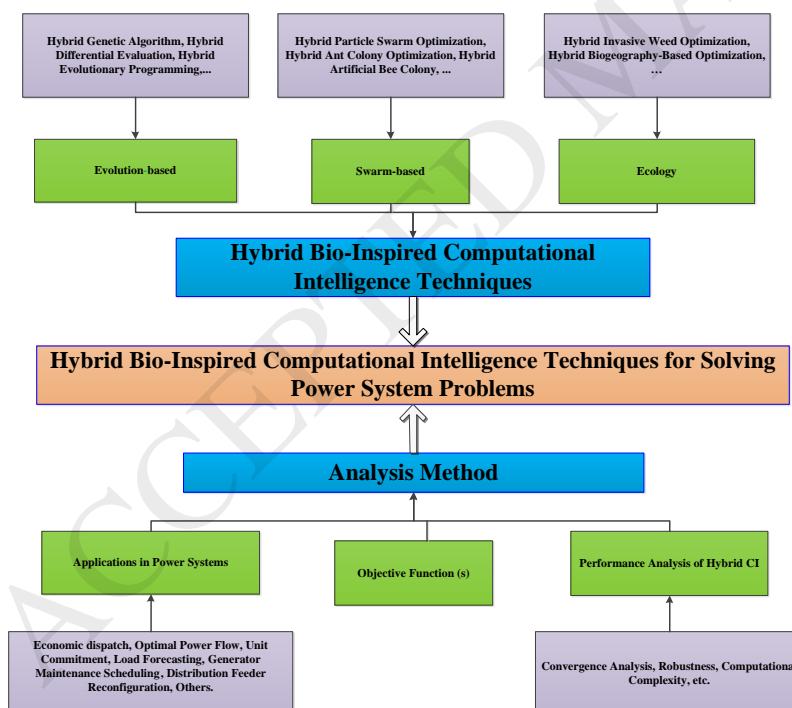

# Hybrid Bio-Inspired Computational Intelligence Techniques for Solving Power System Optimization Problems: A Comprehensive Survey
