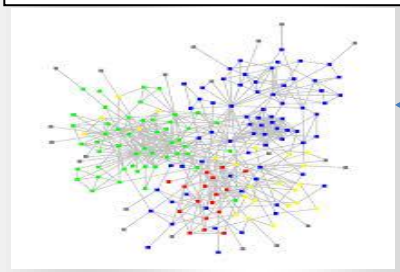
This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

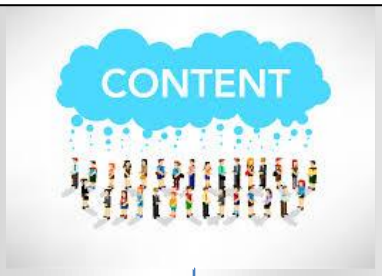
***Graphical abstract (for review)**

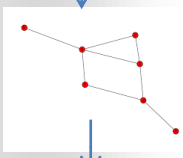
Fetch tweets using tweepy API

Apply network structure approach



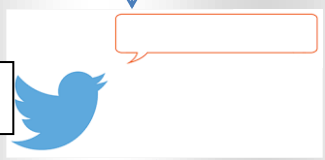
Apply content based approach

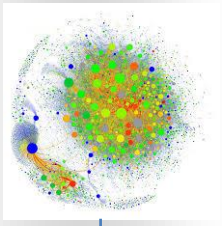




Build retweet graph

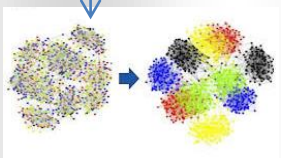
Extract and clean tweet text





Visualize graph and remove noisy nodes

Apply SentiStrength



Graph partitioning and applying controversy measures

Compute sentiment scores and apply content based measures
