

## Accepted Manuscript

Title: The revised manuscript (ASOC-D-15-01199-R1):  
Pythagorean Fuzzy TODIM Approach to Multi-Criteria  
Decision Making

Author: Peijia Ren Zeshui Xu Xunjie Gou

PII: S1568-4946(15)00799-1  
DOI: <http://dx.doi.org/doi:10.1016/j.asoc.2015.12.020>  
Reference: ASOC 3377

To appear in: *Applied Soft Computing*

Received date: 14-6-2015  
Revised date: 27-9-2015  
Accepted date: 9-12-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Highlights

1. Develop the Pythagorean fuzzy TODIM approach to multi-criteria decision making.
2. The developed approach can portray the uncertainty and risk simultaneously.
3. Conduct the simulation tests to verify risk attitude's influence on the ranking orders.
4. Provide a case study to show the practicality and effectiveness of the proposed approach.
5. Demonstrate the superiority of our approach by comparing it with the existing ones.
