Evidence theory-based reliability optimization design using polynomial chaos expansion

Chong Wang, Hermann G. Matthies

PII: S0045-7825(18)30346-3
DOI: <https://doi.org/10.1016/j.cma.2018.07.015>
Reference: CMA 11987

To appear in: *Comput. Methods Appl. Mech. Engrg.*

Received date : 20 April 2018
Revised date : 18 June 2018
Accepted date : 12 July 2018

Please cite this article as: C. Wang, H.G. Matthies, Evidence theory-based reliability optimization design using polynomial chaos expansion, *Comput. Methods Appl. Mech. Engrg.* (2018), <https://doi.org/10.1016/j.cma.2018.07.015>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Evidence theory-based reliability optimization design using
polynomial chaos expansion
