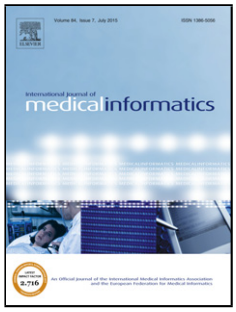
Accepted Manuscript



Title: Experiences of Building a Medical Data Acquisition System Based on Two-Level Modeling

Authors: Bei Li, Jianbin Li, Xiaoyun Lan, Ying An, Wuqiang Gao, Yuqiao Jiang

PII: S1386-5056(18)30022-4
DOI: https://doi.org/10.1016/j.ijmedinf.2018.01.016
Reference: IJB 3647

To appear in: *International Journal of Medical Informatics*

Received date: 23-8-2017
Revised date: 19-1-2018
Accepted date: 20-1-2018

Please cite this article as: Bei Li, Jianbin Li, Xiaoyun Lan, Ying An, Wuqiang Gao, Yuqiao Jiang, Experiences of Building a Medical Data Acquisition System Based on Two-Level Modeling, International Journal of Medical Informatics https://doi.org/10.1016/j.ijmedinf.2018.01.016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
