Systematic review of smartphone-based passive sensing for health and wellbeing

Victor P. Cornet, Richard J. Holden

PII: S1532-0464(17)30278-2
DOI: <https://doi.org/10.1016/j.jbi.2017.12.008>
Reference: YJBIN 2903

To appear in: *Journal of Biomedical Informatics*

Received Date: 13 July 2017
Revised Date: 24 October 2017
Accepted Date: 13 December 2017

Please cite this article as: Cornet, V.P., Holden, R.J., Systematic review of smartphone-based passive sensing for health and wellbeing, *Journal of Biomedical Informatics* (2017), doi: <https://doi.org/10.1016/j.jbi.2017.12.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Systematic review of smartphone-based passive sensing for health and wellbeing
