

## Accepted Manuscript

Beyond Discrimination: a Comparison of Calibration Methods and Clinical Usefulness of Predictive Models of Readmission Risk

Colin G. Walsh, Kavya Sharman, George Hripcsak

PII: S1532-0464(17)30227-7  
DOI: <https://doi.org/10.1016/j.jbi.2017.10.008>  
Reference: YJBIN 2873

To appear in: *Journal of Biomedical Informatics*

Received Date: 20 December 2016  
Revised Date: 11 September 2017  
Accepted Date: 14 October 2017

Please cite this article as: Walsh, C.G., Sharman, K., Hripcsak, G., Beyond Discrimination: a Comparison of Calibration Methods and Clinical Usefulness of Predictive Models of Readmission Risk, *Journal of Biomedical Informatics* (2017), doi: <https://doi.org/10.1016/j.jbi.2017.10.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Beyond Discrimination: a Comparison of Calibration Methods and Clinical Usefulness of Predictive Models of Readmission Risk
