

## Accepted Manuscript

Locality Constraint Distance Metric Learning for Traffic Congestion Detection

Qi Wang, Jia Wan, Yuan Yuan

PII: S0031-3203(17)30140-1  
DOI: [10.1016/j.patcog.2017.03.030](https://doi.org/10.1016/j.patcog.2017.03.030)  
Reference: PR 6103

To appear in: *Pattern Recognition*

Received date: 14 November 2016  
Revised date: 21 January 2017  
Accepted date: 24 March 2017

Please cite this article as: Qi Wang, Jia Wan, Yuan Yuan, Locality Constraint Distance Metric Learning for Traffic Congestion Detection, *Pattern Recognition* (2017), doi: [10.1016/j.patcog.2017.03.030](https://doi.org/10.1016/j.patcog.2017.03.030)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Propose a locality constraint metric learning for congestion detection.
- Present an accurate and unified definition of congestion.
- Assemble a new data set to serve as the platform for congestion detection.
