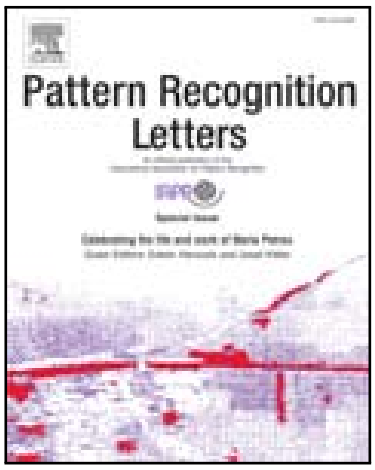
Accepted Manuscript



Multinomial classification with class-conditional overlapping sparse feature groups

Xiangrui Li, Dongxiao Zhu, Ming Dong

PII: S0167-8655(17)30408-7
DOI: 10.1016/j.patrec.2017.11.002
Reference: PATREC 6994

To appear in: *Pattern Recognition Letters*

Received date: 9 April 2017
Revised date: 16 September 2017
Accepted date: 3 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Selecting class-specific features and feature groups in multi-class classification
- Efficient numerical optimization algorithm for solving model
- Demonstration of superior performances on benchmark datasets
