Sparse Representation-Based Classification: Orthogonal Least Squares or Orthogonal Matching Pursuit?

Minshan Cui, Saurabh Prasad

PII: S0167-8655(16)30219-7
DOI: [10.1016/j.patrec.2016.08.017](https://doi.org/10.1016/j.patrec.2016.08.017)
Reference: PATREC 6631

To appear in: *Pattern Recognition Letters*

Received date: 24 November 2015
Accepted date: 14 August 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

Sparse representation classification based on orthogonal least squares proposed

Proposed method kernelized

Results in superior representation for the underlying classification
