## **Accepted Manuscript**

Disruptive developments in document recognition

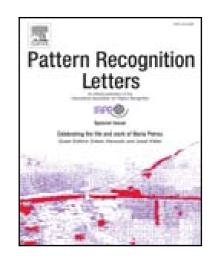

Nagy George

PII: S0167-8655(15)00410-9 DOI: 10.1016/j.patrec.2015.11.024

Reference: PATREC 6401

To appear in: Pattern Recognition Letters

Received date: 29 June 2015 Accepted date: 28 November 2015

Please cite this article as: Nagy George, Disruptive developments in document recognition, *Pattern Recognition Letters* (2015), doi: 10.1016/j.patrec.2015.11.024

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

### ACCEPTED MANUSCRIPT

#### Research Highlights

- Most printed material of legal, commercial or industrial value already transcribed.
- The flow of hardcopy-based transactions that require OCR is drying up.
- Research targets mainly handwriting, historical documents and niche applications.
- The advent of entirely new genres of digital documents requires new approaches.
- Portable and wearable sensors could foster lifetime reading retention.
