

# Accepted Manuscript

Regulated Software Meets DevOps

Teemu Laukkarinen, Kati Kuusinen, Tommi Mikkonen

PII: S0950-5849(18)30014-4  
DOI: [10.1016/j.infsof.2018.01.011](https://doi.org/10.1016/j.infsof.2018.01.011)  
Reference: INFOSOF 5949

To appear in: *Information and Software Technology*

Received date: 26 September 2017  
Revised date: 20 December 2017  
Accepted date: 25 January 2018

Please cite this article as: Teemu Laukkarinen, Kati Kuusinen, Tommi Mikkonen, Regulated Software Meets DevOps, *Information and Software Technology* (2018), doi: [10.1016/j.infsof.2018.01.011](https://doi.org/10.1016/j.infsof.2018.01.011)

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Research on DevOps and regulated software development is scarce.
- Standards for regulated development limit the use of DevOps practices.
- DevOps tools could help with strict tracing requirements if further developed.
- DevOps should automate documentation and template generation where applicable.
- Standards should provide templates that the tools can implement.
