

## Accepted Manuscript

Methodology for geospatial data source discovery in ontology-driven geo-information integration architectures

Miloš Bogdanović, Aleksandar Stanimirović, Leonid Stoimenov

PII: S1570-8268(15)00003-7

DOI: <http://dx.doi.org/10.1016/j.websem.2015.01.002>

Reference: WEBSEM 361

To appear in: *Web Semantics: Science, Services and Agents on the World Wide Web*

Received date: 21 January 2014

Revised date: 13 July 2014

Accepted date: 23 January 2015

Please cite this article as: M. Bogdanović, A. Stanimirović, L. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Methodology for Geospatial Data Source Discovery in Ontology-driven Geo-information Integration Architectures
