This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Highlights**

- Examination of Passion, Indifference, and Neutrality in conversational speech.
- Analysis of paralinguistic and linguistic correlates of arousal and affect.
- Fundamental frequency and amplitude, but not duration, distinguished categories.
- Indifference expressed with greater linguistic affectivity than Passion or Neutrality.
- Pragmatic distinctions of Indifference and Neutrality discussed.
