Title: Biocompatible FeOOH-Carbon Quantum Dots Nanocomposites for Gaseous NO_x Removal under Visible Light: Improved Charge Separation and High Selectivity

Authors: Yu Huang, Yunxia Gao, Qian Zhang, Yufei Zhang, Jun-ji Cao, Wingkei Ho, Shun Cheng Lee

PII: S0304-3894(18)30326-1
DOI: <https://doi.org/10.1016/j.jhazmat.2018.04.071>
Reference: HAZMAT 19354

To appear in: *Journal of Hazardous Materials*

Received date: 8-2-2018
Revised date: 21-4-2018
Accepted date: 26-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Biocompatible FeOOH-Carbon Quantum Dots Nanocomposites for Gaseous NO_x Removal under Visible Light: Improved Charge Separation and High Selectivity
