Accepted Manuscript

A computational model for large-scale oil spill fires on water in tsunamis: Simulation of oil spill fires at Kesennuma Bay in the 2011 Great East Japan Earthquake and Tsunami

Tomoaki Nishino, Yugo Imazu

PII: S0950-4230(17)30792-1

DOI: 10.1016/j.jlp.2018.02.009

Reference: JLPP 3661

To appear in: Journal of Loss Prevention in the Process Industries

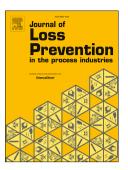

Received Date: 5 September 2017

Revised Date: 18 January 2018

Accepted Date: 23 February 2018

Please cite this article as: Nishino, T., Imazu, Y., A computational model for large-scale oil spill fires on water in tsunamis: Simulation of oil spill fires at Kesennuma Bay in the 2011 Great East Japan Earthquake and Tsunami, *Journal of Loss Prevention in the Process Industries* (2018), doi: 10.1016/j.jlp.2018.02.009.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A computational model for large-scale oil spill fires on water in tsunamis: simulation of oil spill fires at Kesennuma Bay in the 2011 Great East Japan Earthquake and Tsunami
