

## Accepted Manuscript

Title: Removal of H<sub>2</sub>S by a continuous microalgae-based photosynthetic biogas upgrading process

Authors: Leslie Meier, Dana Stará, Jan Bartacek, David Jeison

PII: S0957-5820(18)30553-6  
DOI: <https://doi.org/10.1016/j.psep.2018.07.014>  
Reference: PSEP 1458

To appear in: *Process Safety and Environment Protection*

Received date: 11-1-2018  
Revised date: 29-6-2018  
Accepted date: 23-7-2018

Please cite this article as: Meier L, Stará D, Bartacek J, Jeison D, Removal of H<sub>2</sub>S by a continuous microalgae-based photosynthetic biogas upgrading process, *Process Safety and Environmental Protection* (2018), <https://doi.org/10.1016/j.psep.2018.07.014>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Removal of H<sub>2</sub>S by a continuous microalgae-based photosynthetic biogas upgrading process
