

## Accepted Manuscript

Title: Remediation potential of metalliferous soil by using extracts of composts and vermicomposts from Municipal Solid Waste

Author: Nuhaa Soobhany

PII: S0957-5820(18)30283-0  
DOI: <https://doi.org/10.1016/j.psep.2018.07.005>  
Reference: PSEP 1449

To appear in: *Process Safety and Environment Protection*

Received date: 11-6-2018  
Revised date: 7-7-2018  
Accepted date: 8-7-2018

Please cite this article as: Soobhany, Nuhaa, Remediation potential of metalliferous soil by using extracts of composts and vermicomposts from Municipal Solid Waste. *Process Safety and Environment Protection* <https://doi.org/10.1016/j.psep.2018.07.005>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Remediation potential of metalliferous soil by using extracts of composts and vermicomposts from Municipal Solid Waste
