Title: Quasi-SMILES as a tool to predict removal rates of pharmaceuticals and dyes in sewage

Authors: Alla P. Toropova, Andrey A. Toropov, Emilio Benfenati, Sara Castiglioni, Renzo Bagnati, Alice Passoni, Ettore Zuccato, Roberto Fanelli

PII: S0957-5820(18)30434-8
DOI: <https://doi.org/10.1016/j.psep.2018.07.003>
Reference: PSEP 1447

To appear in: *Process Safety and Environment Protection*

Received date: 20-11-2017
Revised date: 30-5-2018
Accepted date: 2-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Quasi-SMILES as a tool to predict removal rates of pharmaceuticals and dyes in sewage
