Title: Investigation on removal of p-nitrophenol using a hybridized photo-thermal activated persulfate process: Central Composite Design modeling

Author: Ali Reza Zarei Hadi Rezaei Vahidian Ali Reza Soleymani

PII: S0957-5820(15)00128-7
DOI: <http://dx.doi.org/doi:10.1016/j.psep.2015.07.006>
Reference: PSEP 595

To appear in: *Process Safety and Environment Protection*

Received date: 15-9-2014
Revised date: 4-6-2015
Accepted date: 5-7-2015

Please cite this article as: Zarei, A.R., Vahidian, H.R., Soleymani, A.R., Investigation on removal of p-nitrophenol using a hybridized photo-thermal activated persulfate process: Central Composite Design modeling, *Process Safety and Environment Protection* (2015), <http://dx.doi.org/10.1016/j.psep.2015.07.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Investigation on removal of p-nitrophenol using a hybridized photo-thermal**
2 **activated persulfate process: Central Composite Design modeling**
