Title: Formulation of Microemulsion-Based Washing Agent for Oil Recovery from Spent Bleaching Earth-Hydrophilic Lipophilic Deviation Concept

Authors: Noulkamol Arpornpong, Ampira Charoensaeng, Sutha Khaodhiar, David A. Sabatini

PII: S0927-7757(18)30032-3
DOI: <https://doi.org/10.1016/j.colsurfa.2018.01.026>
Reference: COLSUA 22221

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 25-10-2017
Revised date: 5-1-2018
Accepted date: 11-1-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Formulation of Microemulsion-Based Washing Agent for Oil Recovery from Spent Bleaching Earth-Hydrophilic Lipophilic Deviation Concept

Graphical abstract

Highlights

- Spent bleaching earth contains residual oil that has the potential for industrial waste utilization.
