

## Accepted Manuscript

Title: Synthesis and sorption properties of bridged polysilsesquioxane microparticles containing 3-mercaptopropyl groups in the surface layer

Authors: Nataliya V. Stolyarchuk, Hristo Kolev, Maria Kanuchova, Radosław Keller, Miroslava Vaclavikova, Inna V. Melnyk

PII: S0927-7757(17)31056-7  
DOI: <https://doi.org/10.1016/j.colsurfa.2017.11.049>  
Reference: COLSUA 22096

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 26-7-2017  
Revised date: 15-11-2017  
Accepted date: 16-11-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
