Title: Molecular structure and ionic strength both affect the micellization and solubilization behavior of PEO-PPO-PEO surfactants

Authors: Lorenz De Neve, Madeleine York, Jules Dickens, Jan Leys, Greet Meurs, Davy Sinnaeve, Paul Van der Meeren

PII: S0927-7757(17)30672-6
DOI: <http://dx.doi.org/doi:10.1016/j.colsurfa.2017.07.023>
Reference: COLSUA 21797

To appear in: *Colloids and Surfaces A: Physicochem. Eng. Aspects*

Received date: 31-10-2016
Revised date: 2-3-2017
Accepted date: 8-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Molecular structure and ionic strength both affect the micellization and solubilization behavior of PEO-PPO-PEO surfactants
