Title: Migration critically meditates osteoblastic differentiation of bone mesenchymal stem cells through activating canonical Wnt signal pathway

Authors: Jing He, Nihui Zhang, Junwei Zhang, Bo Jiang, Fang Wu

PII: S0927-7765(18)30464-8
DOI: <https://doi.org/10.1016/j.colsurfb.2018.07.017>
Reference: COLSUB 9473

To appear in: *Colloids and Surfaces B: Biointerfaces*

Received date: 5-3-2018
Revised date: 29-5-2018
Accepted date: 9-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Migration critically mediates osteoblastic differentiation of bone mesenchymal stem cells through activating canonical Wnt signal pathway
