Influence of electrostatic interactions on behavior of mixed rice glutelin and alginate systems: pH and ionic strength effects

Xingfeng Xu, Liping Luo, Chengmei Liu, Zipei Zhang, David Julian McClements

PII: S0268-005X(16)30411-8

DOI: [10.1016/j.foodhyd.2016.09.005](https://doi.org/10.1016/j.foodhyd.2016.09.005)

Reference: FOOHYD 3580

To appear in: *Food Hydrocolloids*

Received Date: 5 July 2016

Revised Date: 1 September 2016

Accepted Date: 5 September 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

“Influence of Electrostatic Interactions on Behavior of Mixed Rice Glutelin and Alginate Systems: pH and Ionic Strength Effects”
