Food-grade nanoemulsion filled hydrogels formed by spontaneous emulsification and gelation: Optical properties, rheology, and stability

Jennifer Komaiko, David Julian McClements

PII: S0268-005X(14)00473-1

DOI: [10.1016/j.foodhyd.2014.12.031](https://doi.org/10.1016/j.foodhyd.2014.12.031)

Reference: FOOHYD 2834

To appear in: *Food Hydrocolloids*

Received Date: 15 September 2014

Revised Date: 22 December 2014

Accepted Date: 23 December 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Food-grade nanoemulsion filled hydrogels formed by spontaneous emulsification and gelation: Optical properties, rheology, and stability, by Jennifer Komaiko and David Julian McClements*
