

## Accepted Manuscript

Facile preparation of Ni nanowire embedded nitrogen and sulfur dual-doped carbon nanofibers and its superior catalytic activity toward urea oxidation

Dong Liu, Wenjia Li, Libo Li, Hao Ling, Tianyan You

PII: S0021-9797(18)30669-6  
DOI: <https://doi.org/10.1016/j.jcis.2018.06.021>  
Reference: YJCIS 23712

To appear in: *Journal of Colloid and Interface Science*

Received Date: 28 March 2018  
Revised Date: 6 June 2018  
Accepted Date: 8 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Facile preparation of Ni nanowire embedded nitrogen and sulfur  
dual-doped carbon nanofibers and its superior catalytic activity  
toward urea oxidation**
