

## Accepted Manuscript

Flame-retardant superhydrophobic coating derived from fly ash on polymeric foam for efficient oil/corrosive water and emulsion separation

Jintao Wang, Hongfei Wang, Guihong Geng

PII: S0021-9797(18)30454-5  
DOI: <https://doi.org/10.1016/j.jcis.2018.04.069>  
Reference: YJCIS 23534

To appear in: *Journal of Colloid and Interface Science*

Received Date: 25 March 2018  
Revised Date: 14 April 2018  
Accepted Date: 17 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Flame-retardant superhydrophobic coating derived from fly ash on  
polymeric foam for efficient oil/corrosive water and emulsion  
separation**
