

## Accepted Manuscript

As(V) removal capacity of FeCu bimetallic nanoparticles in aqueous solutions:  
The influence of Cu content and morphologic changes in bimetallic nanoparticles

Pamela Sepúlveda, María A. Rubio, Samuel E. Baltazar, J. Rojas-Nunez, J.L. Sánchez Llamazares, Alejandra García García, Nicolás Arancibia-Miranda

PII: S0021-9797(18)30369-2  
DOI: <https://doi.org/10.1016/j.jcis.2018.03.113>  
Reference: YJCIS 23463

To appear in: *Journal of Colloid and Interface Science*

Received Date: 29 January 2018  
Revised Date: 27 March 2018  
Accepted Date: 30 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
