Free-standing and flexible organic cathode based on aromatic carbonyl compound/carbon nanotube composite for lithium and sodium organic batteries

Chenpei Yuan, Qiong Wu, Qi Shao, Qiang Li, Bo Gao, Qian Duan, Heng-guo Wang

PII: S0021-9797(18)30112-7
DOI: <https://doi.org/10.1016/j.jcis.2018.01.095>
Reference: YJCIS 23253

To appear in: *Journal of Colloid and Interface Science*

Received Date: 18 December 2017
Revised Date: 25 January 2018
Accepted Date: 25 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
