Low temperature preparation of oxygen-deficient tin dioxide nanocrystals and a role of oxygen vacancy in photocatalytic activity improvement

Supanan Anuchai, Sukon Phanichphant, Doldet Tantraviwat, Prayoosak Pluengphon, Thiti Bovornratanaraks, Burapat Inceesungvorn

PII: S0021-9797(17)31206-7
DOI: <https://doi.org/10.1016/j.jcis.2017.10.047>
Reference: YJCIS 22917

To appear in: *Journal of Colloid and Interface Science*

Received Date: 11 September 2017
Revised Date: 11 October 2017
Accepted Date: 12 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
