Methane Adsorption on Porous Nano-silica in the Presence of Water: An Experimental and Ab Initio Study

Lu Wang, Qingchun Yu

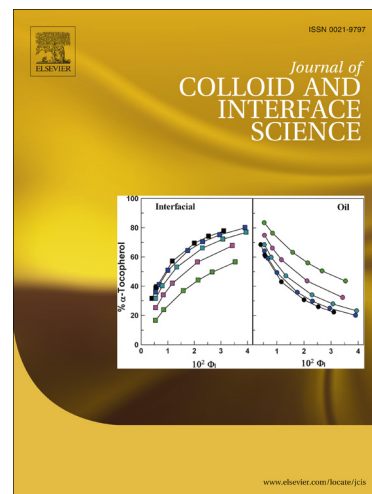

PII: S0021-9797(15)30231-9
DOI: <http://dx.doi.org/10.1016/j.jcis.2015.09.061>
Reference: YJCIS 20771

To appear in: *Journal of Colloid and Interface Science*

Received Date: 4 April 2015
Revised Date: 18 September 2015
Accepted Date: 24 September 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Methane Adsorption on Porous Nano-silica in the Presence of Water: An Experimental and Ab Initio Study
