Molecular Surface Area Based Predictive Models for the Adsorption and Diffusion of Disperse Dyes in Poly(lactic Acid) Matrix

Suxin Xu, Jiangang Chen, Bijia Wang, Yiqi Yang

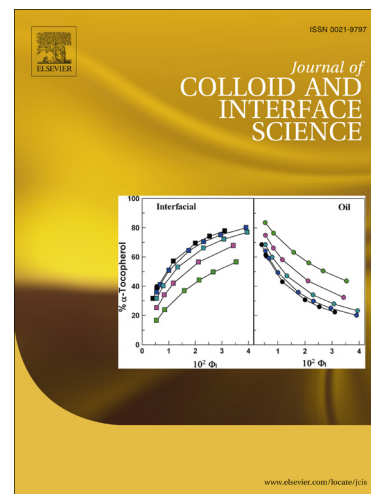

PII: S0021-9797(15)30047-3
DOI: <http://dx.doi.org/10.1016/j.jcis.2015.07.028>
Reference: YJCIS 20586

To appear in: *Journal of Colloid and Interface Science*

Received Date: 30 April 2015
Revised Date: 29 June 2015
Accepted Date: 14 July 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Molecular Surface Area Based Predictive Models for the Adsorption and Diffusion of Disperse Dyes in Polylactic Acid Matrix
