Imparting Antimicrobial and Anti-Adhesive Properties to Polysulfone Membranes through Modification with Silver Nanoparticles and Polyelectrolyte Multilayers

Li Tang, Khanh An Huynh, Margaret L. Fleming, Mathieu Larronde-Larretche, Kai Loon Chen

PII: S0021-9797(15)00335-5  
DOI: <http://dx.doi.org/10.1016/j.jcis.2015.03.051>  
Reference: YJCIS 20362

To appear in: *Journal of Colloid and Interface Science*

Received Date: 22 January 2015  
Accepted Date: 27 March 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
