The correlation between fibronectin adsorption and attachment of vascular cells on heparinized polycaprolactone membrane

Mingcong Sun, Jun Deng, Changyou Gao

PII: S0021-9797(15)00128-9
DOI: <http://dx.doi.org/10.1016/j.jcis.2015.01.082>
Reference: YJCIS 20224

To appear in: *Journal of Colloid and Interface Science*

Received Date: 12 November 2014
Accepted Date: 29 January 2015

Please cite this article as: M. Sun, J. Deng, C. Gao, The correlation between fibronectin adsorption and attachment of vascular cells on heparinized polycaprolactone membrane, *Journal of Colloid and Interface Science* (2015), doi: <http://dx.doi.org/10.1016/j.jcis.2015.01.082>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The correlation between fibronectin adsorption and attachment of vascular cells on heparinized polycaprolactone membrane
