Separation of dielectric janus particles based on polarizability-dependent induced-charge electroosmotic flow

Fang Zhang, Dongqing Li

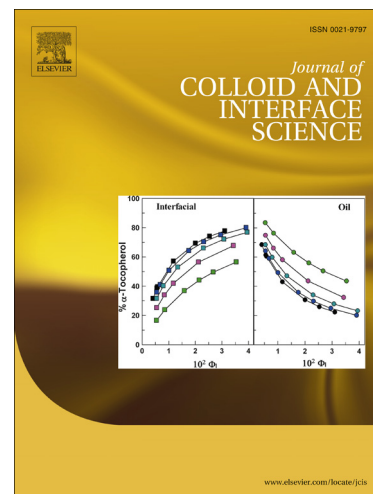

PII: S0021-9797(15)00161-7  
DOI: <http://dx.doi.org/10.1016/j.jcis.2015.02.006>  
Reference: YJCIS 20239

To appear in: *Journal of Colloid and Interface Science*

Received Date: 21 December 2014  
Accepted Date: 2 February 2015

Please cite this article as: F. Zhang, D. Li, Separation of dielectric janus particles based on polarizability-dependent induced-charge electroosmotic flow, *Journal of Colloid and Interface Science* (2015), doi: <http://dx.doi.org/10.1016/j.jcis.2015.02.006>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Separation of Dielectric Janus Particles Based on Polarizability-  
Dependent Induced-Charge Electroosmotic Flow**
