Title: Post-combustion CO₂ capture using supported K₂CO₃:
Comparing physical mixing and incipient wetness
impregnation preparation methods

Authors: S.Toufigh Bararpour, Davood Karami, Nader
Mahinpey

PII: S0263-8762(18)30374-5
DOI: <https://doi.org/10.1016/j.cherd.2018.07.027>
Reference: CHERD 3281

To appear in:

Received date: 12-3-2018
Revised date: 4-7-2018
Accepted date: 19-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Post-combustion CO₂ capture using supported K₂CO₃: Comparing physical mixing and incipient wetness impregnation preparation methods

S. Toufigh Bararpour, Davood Karami, Nader Mahinpey*
