

## Accepted Manuscript

Title: Enhanced mass transfer from the installation of a sieve tray subject to the variation of liquid heights and flow regimes in a bubble column

Authors: Hanjin Im, Shinbeom Lee, Jae W. Lee

PII: S0263-8762(18)30301-0  
DOI: <https://doi.org/10.1016/j.cherd.2018.05.045>  
Reference: CHERD 3224

To appear in:

Received date: 31-7-2017  
Revised date: 4-4-2018  
Accepted date: 2-5-2018

Please cite this article as: Im, Hanjin, Lee, Shinbeom, Lee, Jae W., Enhanced mass transfer from the installation of a sieve tray subject to the variation of liquid heights and flow regimes in a bubble column. *Chemical Engineering Research and Design* <https://doi.org/10.1016/j.cherd.2018.05.045>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Enhanced mass transfer from the installation of a sieve tray subject to the variation of liquid heights and flow regimes in a bubble column
