

## Accepted Manuscript

Title: Assessing the influence of viscosity and milling bead size on the stressing conditions in a stirred media mill by single particle probes

Authors: A. Strobel, J. Schwenger, S. Wittpahl, J. Schmidt, S. Romeis, W. Peukert

PII: S0263-8762(18)30335-6  
DOI: <https://doi.org/10.1016/j.cherd.2018.06.040>  
Reference: ChERD 3250

To appear in:

Received date: 21-2-2018  
Revised date: 25-5-2018  
Accepted date: 28-6-2018

Please cite this article as: Strobel, A., Schwenger, J., Wittpahl, S., Schmidt, J., Romeis, S., Peukert, W., Assessing the influence of viscosity and milling bead size on the stressing conditions in a stirred media mill by single particle probes. *Chemical Engineering Research and Design* <https://doi.org/10.1016/j.cherd.2018.06.040>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
