Title: Prediction of heat transfer, pressure drop and entropy generation in shell and helically coiled finned tube heat exchangers

Authors: Mohammad Sepehr, Seyed Saeed Hashemi, Mohammad Rahjoo, Vahid Farhangmehr, Ashkan Alimoradi

PII: S0263-8762(18)30184-9
DOI: <https://doi.org/10.1016/j.cherd.2018.04.010>
Reference: CHERD 3127

To appear in:

Received date: 18-11-2017
Revised date: 5-4-2018
Accepted date: 9-4-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Prediction of heat transfer, pressure drop and entropy generation in shell and helically coiled finned tube heat exchangers
